Caprine Arthritis-Encephalitis (CAE) Control

UK Herd No: 222766

This is to certify that the *Mineshop* herd of goats belonging to the person/s named above has been designated a BGS CAE Monitored Herd and according to our records the goats have been tested in accordance with the Society's Regulation 25.

The certificate is valid until **21st August 2021**. The designation may be withdrawn prior to this date in the event of a goat in the herd giving a positive result on a test for CAE infection, or if the Society's Regulation 25 is not fully adhered to.
